Spirit Animals: Book 1: Wild Born

by Brandon Mull

Booktalk!

Not every child who comes of age will discover they have a spirit animal. It's very uncommon to summon one of these incredible beasts, who remain loyal to their owners for life and bestow upon them special powers and abilities.

Then, all at once across the world, a handful of children begin summoning the animals that died long ago protecting their world. They know a prophecy is coming true. But why now, and why have they chosen these seemingly random bonds?

The fate of their nations now rests in the hands of these children.

Best for ages 8–12
