

Booktalk!

The Savage Fortress

by Sarwat Chadda

Booktalk!

Ash and his sister, Lucky, have always been fascinated by their uncle in India. They're thrilled to be visiting him for the summer. But as soon as they arrive, they notice that something is ... odd. Their uncle is offered quite a bit of money to help with a strange search, and his new boss, Savage, is not quite human.

Savage's servants are even creepier. And when Ash accidentally steals the very thing these creatures have been looking for, he's got every reason to worry. Forget the mysterious object – now they're looking for him!

Best for ages 12 & Up
