### **Booktalk!**

The grand *Titanic* has hit an iceberg and is sinking. Ten-year-old George watches as hundreds of terrified and nearly frozen men, women, and children witness the great ship as it fills with the icy water of the North Atlantic.

Only hours before, George was having the time of his life with his sister and aunt on the greatest ship ever built. He explored the bridge where the captain steered the ship, as well as all of the fantastic rooms and dining areas. He met people from all over Europe and America who spent a fortune to be on *Titanic's* maiden voyage. Everyone, including the man who designed the vessel, said it was unsinkable.

But the iceberg changes everything, and George will have to find amazing courage to save himself, his family, and his new friends from a terrifying end.

**Best for ages 7–9**
