## THE STRANGE CASE OF ORIGAMI YODA

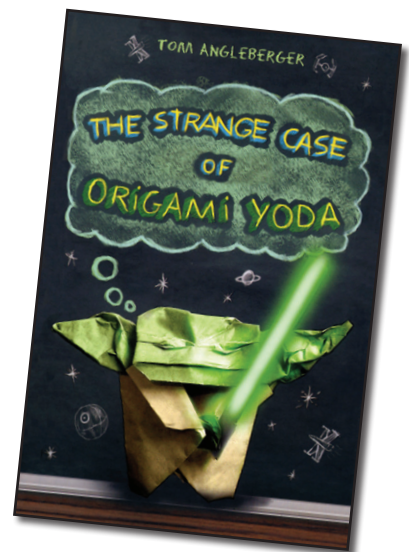

Written by Tom Angleberger

### Booktalk!

Dwight is a totally unique sixth-grader. In fact, his friend Tom thinks he is a complete oddball. But Dwight is a master at origami, and his genius creation is a green origami Yoda finger puppet he always wears on his index finger.

Origami Yoda has amazing powers, insights, and advice. This may seem crazy, because Origami Yoda speaks through Dwight's voice, but all the sixth-graders (and even some eighth-graders) know you can ask Origami Yoda anything and he'll lead you in the right direction – most of the time.

Can a green piece of paper folded into a puppet that lives in a "galaxy far, far away" really be trusted?

Best for ages 9–12
