Booktalk!

Olivia's face is her fortune. She knows she is lucky to be pretty and to have had a modeling career since elementary school. Her looks have made her popular, and she has the cutest boyfriend.

Now in eighth grade, Olivia wakes one day with a pimple. She is only mildly worried, but soon the pimples multiply until they are all you see on her once-perfect skin.

Olivia's acne throws her life into a complete tailspin as she faces her new reality and determines how important beauty really is.
