

DRAWBRIDGE and WATER

Drawbridge and Water

Materials

2 yds. of gray or light brown felt (should be about same width as door)

black permanent marker

purple construction paper

scissors

two pieces of dark blue felt, approximately 4 yds. combined

1¹/₂ yds. light blue felt

tape

1. Place gray or light brown felt on the floor in front of the door.
2. Draw planks using a black permanent marker.
3. Place the two pieces of dark blue felt on either side of the drawbridge.
4. Cut out light blue swirls from felt and place them on dark blue felt.
5. Make purple construction paper chains. Tape one end onto castle and attach other to end of drawbridge.
