

The Scholastic Book Fair

The Scholastic Book Fair offers a small, personal environment for your family to shop. It's like a bookstore, but better! Every book at the Book Fair has been reviewed and approved by reading specialists. The Fair also carries special, more affordable versions of books. For example, a hardcover of one book might be \$16.95 at a bookstore, but at the Book Fair the same book, in paperback, might be \$3.95.

It's like a bookstore,
but better!

Besides our exceptional selection of books, we also organize the books specifically for your readers. In the **Read to Me** and **Read Together** cases, you will find great read-aloud titles as well as books for beginning readers. Nonfiction books for children of all ages are in the **Read to Know** cases. You will find the perfect books for older readers in the **Independent Readers** cases.

- Books that share similar topics are next to each other on the shelves. For example, mystery books are grouped together. You'll also find fantasy books, family and friendship books, and more.
- You'll find more great books on tables. Like the cases, the tables have books that support all reading levels. Look for tables filled with bestsellers, cookbooks, seasonal favorites, and more.
