**Putting Bees on the Map: Borders**

- Check the map for the states that produce apples with the help of honey bees. Do any of these states share a border? If so, which ones?
- Check the map for the states that produce blueberries with the help of honey bees. Do any of these states share a border? If so, which ones?

**Putting Bees on the Map: State Capitals**

- What is the role of the Drone bee in the hive?
- What is the role of the Worker bee in the hive?
- Questions
  - What is the role of the Drone bee in the hive?
  - What is the role of the Worker bee in the hive?
  - What is the role of the Queen bee in the hive?

**Putting Bees on the Map: Regions of the U.S.**

- Name three distinct features of each caste of honey bee, then answer the questions that follow on a separate sheet of paper.
- There are several bee dances, but the most common are the round dance and the waggle dance. Read the descriptions of both dances below, then write (one per row) what the worker bee is "saying" on the lines to the right.
- There are several bee dances, but the most common are the round dance and the waggle dance. Read the descriptions of both dances below, then write (one per row) what the worker bee is "saying" on the lines to the right.
- There are several bee dances, but the most common are the round dance and the waggle dance. Read the descriptions of both dances below, then write (one per row) what the worker bee is "saying" on the lines to the right.

**Putting Bees on the Map: Calculating Distance**

- Every map includes an important tool: a scale. A scale shows the relationship between distance on a map and distance on the ground. For instance, one centimeter on a map may represent 10 miles on the ground. Use the scale on the Get the Buzz on Honey Bees map to approximate the distance from Boston to Sacramento.
- Orange blossom honey is valued for its fragrance and is harvested in Florida and California. Approximately how far is the capital of California from the capital of Florida?
