

SCIENCE EXPLORATIONS

WEB QUEST

BLOODSUCKING LEECHES!

Explore the Web Quest online and use the space below to record what you learn.

QUESTIONS

1. Explain where you'd go to find the most leeches.

2. Explain how scientists catch leeches in the wild.

3. Describe how a leech looks. Many leeches have interesting patterns and they can be very colorful. What colors and patterns do you see?

4. Discuss the leech's body parts. How many suckers does it have and where are they located?

5. Compare and contrast a leech's body before and after it's eaten a meal. Describe the changes.

6. Why do people raise leeches on farms and sell them? (What can leeches do to help people?)
