Persuade people in your community to take steps to prevent fires in their homes.

TITLE OF LETTER:

Preventing Fires

DATE:

9/19/08

DEAR EDITOR:

This Fire Prevention Week (October 5-11), my class at MetroWest Elementary school has been learning about preventing home fires.

Fires are very dangerous. They kill a lot of people. A small fire can become a large fire. This topic should matter if you want to be safe. People might not think smoke detectors are important. They will help save your life! Some tips to be safe are: Keep space heaters away from anything that can burn, Stop, drop and roll if your clothes catch on fire and don't forget to turn off the stove top when your not using it. Remember YOUR life is more important than anything else.

Sincerely,

Gayathri
