Fire safety is important because it can save people's lives. In case if there is a fire you must know where to go and what to do. You must have a plan ready so your family knows what to do. Every home should have a smoke alarm and make sure that the batteries are working at all times. It would be a good idea to practice at home like we do the fire drills at school. Very important tips

Armando

would be to never open a door that is too hot, each room should have two ways out, practice your way out with your eyes closed. because it would be hard to see if there is a lot of smoke, and once you are out you stay out. This is a good time to dial 911 so the fire-fighters can stop the fire and check the house.
