

Accordion Book with 4 Pockets

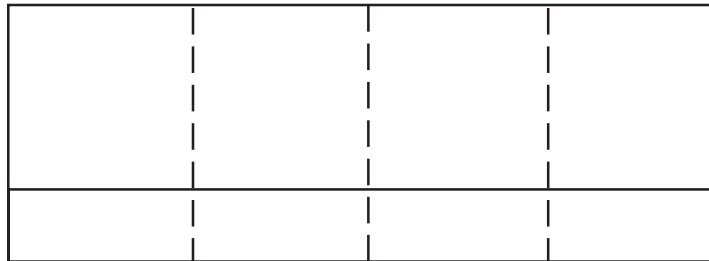

1. Write and illustrate your cards. You will need at least 4 completed cards (one for each pocket) – but, you can use as many as 16 completed cards (four in each pocket).
2. To make your accordion book (which will house the cards), lay one piece of legal size paper lengthwise in front of you.

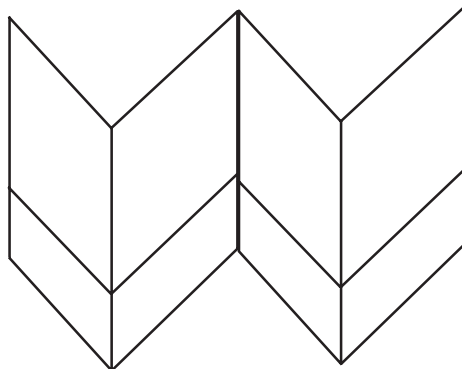

3. Fold the bottom edge up 1 or 2 inches to form a pocket.

4. Now, create four equal spaces. First, make a center fold. Second, fold each edge to the center.

5. Your completed accordion book should have four equal spaces to hold up to four cards each.

6. It can be displayed standing on a table or tied with string to keep the pieces together.
