ESCAPE **FROM** **PLANET EARTH**

WELCOME, EARTHLINGS

In *Escape From Planet Earth*, the blue alien residents of the planet Baab think daring astronaut Scorch Supernova is a national hero. Scorch has accomplished some amazing missions thanks to his quiet, cautious brother, Gary, who heads mission control at the space agency BASA. But when Scorch responds to an SOS from a notoriously dangerous planet (Earth), he needs all the help he can get!

ESCAPE
FROM
PLANET EARTH

Earth may be a mystery to Scorch Supernova, Gary and other planet Baab inhabitants, but is it a mystery to you? Test your knowledge of Earth to help Baabian scientists sort out fact from fiction.

1. What makes up nearly 70 percent of Earth's surface?
A. water B. land C. volcanoes
2. About how many people call Earth home?
A. 690,000 B. 69 million C. 6.9 billion
3. Earth is the _____ planet from the sun.
A. second B. third C. fifth
4. It takes Earth nearly _____ days to circle the sun.
A. 30 days B. 180 days C. 365 days
5. About how old do scientists think Earth is?
A. 4.5 million years old B. 4.5 billion years old C. 4.5 trillion years old
6. There are about _____ languages spoken on Earth.
A. 700 B. 7,000 C. 7 million
7. How many days does it take the moon to circle the Earth?
A. 29.5 days B. 180 days C. 365 days

OUT-OF-THIS-WORLD CROSSWORD

In *Escape From Planet Earth*, BASA is planet Baab's space agency – and you've been hired to join its Mission Control Team. But before Scorch Supernova speeds off on a dangerous mission to answer an SOS from planet Earth, you need to make sure you know all about the solar system by using these space terms to complete the crossword puzzle.

SPACE TERMS

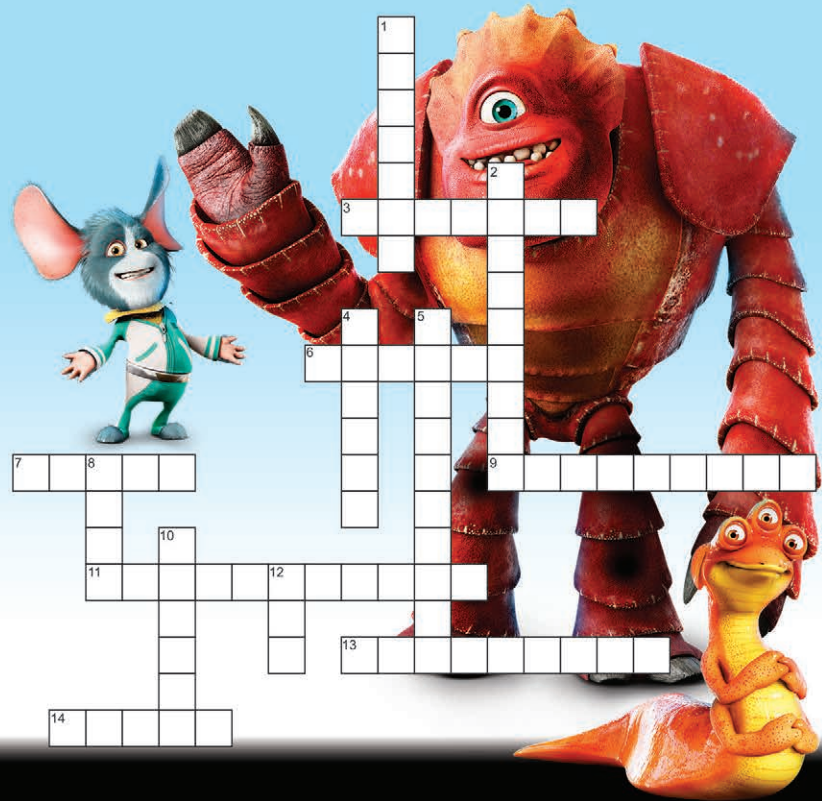

- ASTEROIDS
- COMET
- JUPITER
- MARS
- PLANET
- SATURN
- SUN
- ASTRONAUT
- GALAXY
- KUIPER BELT
- MERCURY
- PLUTO
- SOLAR SYSTEM
- SUPERNOVA

ACROSS

3. The smallest planet in our solar system, closest to the sun.
6. The second largest planet in our solar system, known for its beautiful rings.
7. Halley's _____ is the most famous of these bright heavenly bodies with tails.
9. In 1969, Neil Armstrong became the first _____ to set foot on the moon.
11. Earth is among the eight planets that make up our _____.
13. Millions of these rocks orbit the sun in an area between Mars and Jupiter.
14. In 2006, scientists classified it as a dwarf planet.

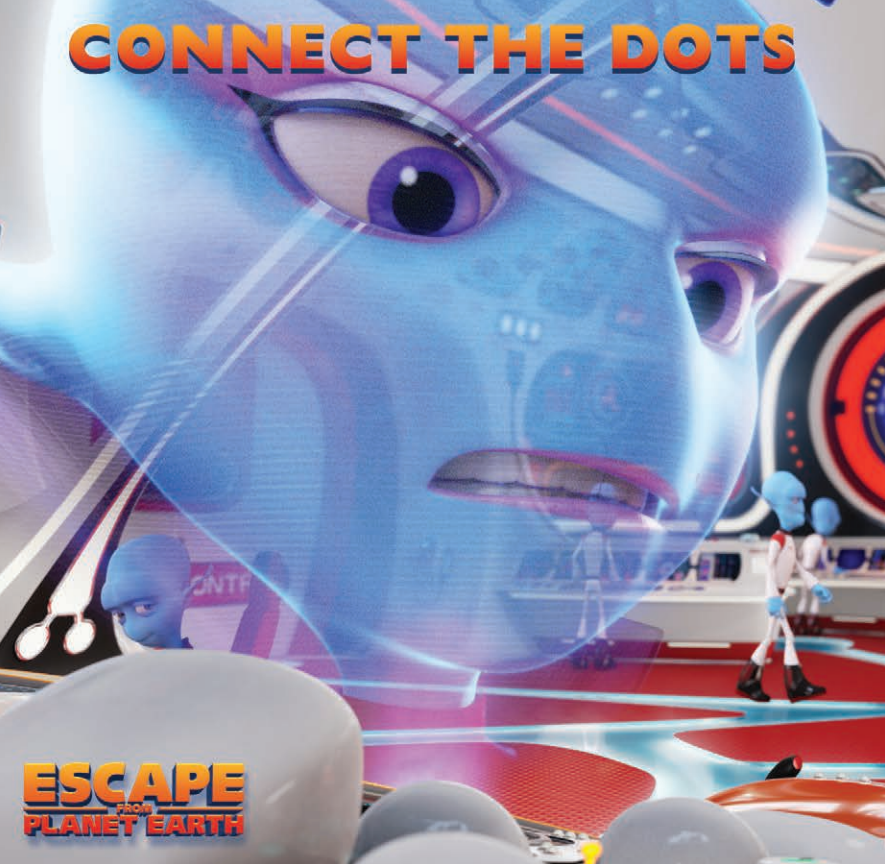

DOWN

1. The largest planet in our solar system and has 63 moons.
2. Scorch gets his name from this bright exploding star that can give off more light than millions of suns.
4. This is a very large group of stars and planets, and ours is called the Milky Way.
5. Pluto's home is in the _____, an icy area in the far reaches our of our solar system.
8. _____ is nicknamed "The Red Planet" because of its reddish soil.
10. Scorch might have called the Earth the Dark _____, but it's anything but that to us.
12. All the planets in our solar system orbit this star.
