HORRORLAND

BIGGER AND SCARIER THAN THE ORIGINAL...

BIGGER RIDES!

MORE MONSTERS!

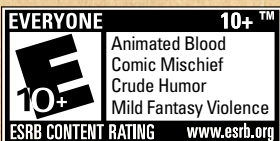

DEADLIER FUN!

Goosebumps®

HORRORLAND THE VIDEO GAME

TIPS & TRICKS TO GET OUT ALIVE...MAYBE!

- Stop by the information booth when you first enter the park in Carnival of Screams for important park info—and a special gift!
- Don't let the little girl distract you in Monster Mash. If you hit her, you'll lose points!
- In Bumper Carnage, the red, yellow and green lights on the cars reflect the lives each car has. Every time you hit a car, a light will turn off.
- Once you've unlocked Vampire Village, you can always go back to Carnival of Screams to play games and earn more Frights in addition to playing the games in Vampire Village.
- Vampire Village is centrally located in the park. You can access the other 4 park areas—Carnival of Screams, Mad Labs, Fever Swamp and Terror Tombs—from Vampire Village.
- The glowing red eyes in Roller Ghoster aren't just there to look at you! Shoot them for points!
- Hit the money bags in Garlic Crusher to add to your token total.
- Need a hint? Talk to the fortune teller in Carnival of Screams or Vampire Village.
- Need a laugh? Pick up one of the phones in Vampire Village to hear a frightfully funny vampire joke.
- In Rub-a-Dub Slug, pull the slug's tongue to reveal 10 hidden tokens.
- Talk to other kids everywhere in the park. Some of them will even sell you Monster Cards.
- Look for the "Behind the Screams" feature in the *One Day in HorrorLand* book for clues to win the bonus Monster Card!
- It's a race to the finish in Scorpion Speedway. To pick up speed, drive over the red arrows.
- To land the ball in the 20 slot in Mummy Run, shoot the ball toward the right wall to bounce the ball into the slot.
- Stop by the Snack Shack in Fever Swamp for a BITE to eat!
- The Scream-O-Meter measures your fear factor on rides. Keep your cool to survive the ride!
