

Below are the questions your team will be required to answer as a part of completing your Action Plan PowerPoint. Review the questions below and submit your answers in the online PPT template.

All teams must complete the three pages of their PPT's Project Gallery. The Project Gallery is the space your team is given to show supporting images of your plan in action. As the PPT's maximum size is limited to 15-20 MB of space, we recommend you use low-res photos and poster images. These materials may include PDFs or JPEGs of digital photos, news articles, letters of commendation, etc.

Submit the action plan online at [www.scholastic.com/lexus](http://www.scholastic.com/lexus).

### **PART 1: WHAT'S THE ENVIRONMENTAL ISSUE?**

1. Write about your team's topic.
2. Explain why your team selected this topic.
3. Explain what issue you will address in your action plan.

### **PART 2: WHAT'S YOUR ACTION PLAN?**

1. What are the step-by-step actions your team will take to address the environmental issue?
2. List the specific responsibilities of each team member toward achieving your plan.
3. How will your team measure success?
4. How will you quantify impact? (e.g., tallying how many gallons of water were saved, by tracking how many cans were recycled.)

### **PART 3: HOW DID YOU IMPLEMENT YOUR IDEAS?**

1. What did your team do?
2. Did you organize a school event or a community wide event to raise awareness of the issue? Tell us about it.
3. Did you work with any local environmental groups, governmental agencies, schools, etc? Tell us about it.
4. What did you do to get the word out about your project? (e.g., create a Web site, TeacherTube video, press release, write a blog, etc.) *\*Please provide a list of any Internet links to your website, online videos, blog, etc.*

### **PART 4: EVALUATE YOUR PLAN: WHAT ARE THE RESULTS?**

1. In what ways was your plan successful?
2. What challenges did you face?
3. How did you raise awareness in you school communicate as well as the greater community?
4. What were the quantifiable results?
5. What did you learn from this experience?
