

WHAT IS RECYCLING?

When we recycle, we put things we don't need in bins. These old things are then changed into new items. That's called recycling. Recycling helps to save materials. It also helps save energy.

Directions: Do you know what can be recycled? Circle the items below that can be recycled.

paper

cereal box

soup can

plastic bag

water bottle

H₂O

candy wrapper

paper towels

banana peel

IT'S YOUR TURN!

What can you and your family recycle? Make a list on the back of this sheet.
