

**FLORIDA:** Cocoa Beach Activity

# SPACE COAST MOBILE

The area in Florida known as the Space Coast is home to Cape Canaveral and the Kennedy Space Center, where NASA launches all of its manned space flights and many unmanned rockets. While visiting the area, you can tour a rocket garden, learn about astronauts like Sally Ride (*the first American woman in space*) and Neil Armstrong (*the first man to walk on the moon*) in the hall of fame or even have lunch with a real astronaut to ask what it feels like to coast through space!

**Create a Space Coast mobile to hang up at home as a souvenir of your trip!**

## WHAT YOU NEED:

- crayons, markers, or colored pencils
- scissors
- clear packing tape for laminating
- yarn or string
- stick or wooden dowel

## WHAT YOU DO:

- Color the Space Coast images and cut the shapes out.
- Write a fun fact or two that you learned during your visit to the Space Coast on the back of each picture. Then ask a parent to help you laminate them with clear tape so they are ready to use.
- Punch a hole in each and tie with a length of yarn or string.
- Tie each picture to your stick or dowel so they hang at different lengths.
- Attach a string to the stick and it's ready to hang!
- Once you're back home, consider creating another Space Coast mobile from the photos your family took while there.
