

MICHIGAN:
Sleeping Bear Dunes National Lakeshore
(and Dark Sky Park) Activity

STAR ATTRACTIONS

The Headlands International Dark Sky Park, not far from Sleeping Bear Dunes in Michigan, is one of the best places in the world to view the night sky. Connect the dots below to reveal two of the constellations you can look for while gazing at the stars atop one of the pristine sand dunes.

When you look up at the night sky, what other stars, planets, or constellations can you identify? If it is clear and dark enough, you might even be able to see the Milky Way, which is the galaxy that contains our solar system.
