**Workshop 5**

## Design a Map

Follow these steps for creating a map of an ancient civilization.

You can use the grid below for making a rough draft.

- ① List the places and natural features that will appear on the map.
- ② Create the base map: outline the continents, countries, oceans, cities, and other major features that will appear on the map.
- ③ Mark places where tombs and other artifacts have been found.
- ④ Add text that explains key events that happened over time.
- ⑤ Add the title, compass rose, and map key.
- ⑥ Arrange photos or images of the places on your map.
