

BUILD A ROBO MAZE

Work as a family to design a fun maze!

Gear up for a fun, active game to get the whole family moving!

Choose a shared space at home—a hallway or playroom works well!

Use blankets, chairs, books, couch pillows or laundry baskets to create walls and obstacles.

Move a family member through the maze by calling out "code" (instructions like "Take one step forward," "Now, turn left," "Do two somersaults to the right"). Take turns playing the part of the programmer and the robot.

Challenge the robot to follow the programmer's code exactly (even if they have to do silly things!). If the robot bumps into a wall or is stuck at an obstacle, they should reset at the start of the maze.

BOTS BUILD SKILLS!

By bringing STEAM concepts to life at home with fun activities, you're helping your child learn key skills, like problem-solving and collaboration.

Bring more learning fun into your home with the Scholastic STEAM kits. Learn more at scholastic.com/STEAM/#kits
