Assess Online Risks

Consider these typical activities that tweens and teens do online. What are the pros and cons of each? Are they safe and secure? Why or why not?

Online activity	Pro (positives)	Con (negatives)	Safe and secure?
The browser on the school laptop offers to save my login and password for me.	I won't have to remember my password!		
We're going to work on our group project over the weekend using collaborative cloud presentation software.		Signing up for the software account means that our personal information is stored online.	
My friend emailed me the link to a cool game I can download.			Maybe not. I need to figure out if the game will be downloaded from a trusted source.
The app I watch videos on constantly recommends other videos I might like.			
I got a friend request on social media from someone I don't know. They said they're friends with one of my friends.
