

The Outdoor Savivors

(A rap song)
Original Composition

*Turfmutt is a saving dog
He and his crew will clean up the bogs*

*The crew really helps a whole lot
They take care of every single dot*

So let me tell you about them....

*Turfmutt is the leader of the band
Always lends a helping hand*

*Prof. Botany is the brains of the crew
She can spot waste from another's shoe!*

*Carbon creep he don't care
he lets pollution in the air!*

*Dust demon he makes you sneeze
do something about it don't just freeze!*

*That brings us in to Dr. Runoff when you meet him
don't take the day off!*

*Heat freak you should beware,
he makes global warming with just a flare!*

*These creatures are strong but will be beaten
the big six and you will get them neatened!*

*Even though you don't really know
The Outdoor Powers are on the go!*

GO GREEN!

I have a carbon catcher so, YOU'RE GOING DOWN!

ok this will be hard

your flames are going out

what were you going to show me?

I checked the entire plant; absolutely healthy!

NEVER! I will keep the planet clean and healthy!

oh! go take the day off!

I'll do my part

We will get you next time!

We never give up!
