

Beaks

Birds have beaks. Short beaks help birds crack open seeds. Woodpeckers have long beaks. They peck holes to find bugs. eagles have hooks on their beaks. The hooks help them tear their food apart.

Eyes

Why do we blink?

We blink to make dust go away.

Why do we cry?

We cry when we are sad. Crying also cleans our eyes?

Why do we wear sunglasses.

We protect our eyes from the bright sun.

My Class

My teacher, Mrs. Nier, loves reading us books. Our favorite book is curious george. He is such a funny Monkey! Mrs. Nier also loves taking us outside to play. My friend molly and I swing on the swings.
