

# Look at the Monkeys

Look at the monkeys in the tree.  
There are five little monkeys staring  
at me.  
Then one little monkey swung from  
the tree.  
How many monkeys were left?  
There's four!

Look at the monkeys in the tree.  
There are four little monkeys  
staring at me.  
Then one little monkey swung from  
the tree.  
How many monkeys were left?  
There's three!

Look at the monkeys in the tree.  
There are three little monkeys  
staring at me.  
Then one little monkey swung from  
the tree.  
How many monkeys were left?  
There's two!

Look at the monkeys in the tree.  
There are two little monkeys  
staring at me.  
Then one little monkey swung from  
the tree.  
How many monkeys were left?  
There's one!

Look at the monkeys in the tree.  
There is one little monkey staring  
at me.  
Then one little monkey swung from  
the tree.  
How many monkeys were left?  
There's none.

There are no little monkeys in  
the tree.  
No little monkeys staring at me.  
Then five little monkeys swung  
from the tree...  
And all the monkeys looked at me.
