## **Coaching Partnership Process Model**

Learner reflects and collaborates with coach or mentor to refine the practice.

Coach or mentor and learner collaborate to identify problems of practice or identify/adjust self-indentified goals.

Learner takes action steps.

Coach or mentor models target strategy or observes and collects evidence.

Coach and learner reflect on the experience, examine evidence, and agree upon action steps.

The administrator collaborates with coach and/or mentor and learner to support the process
