

Making Facts Clear

Match the fact and its detail by drawing a line from the fact to the detail. At the bottom, write another fact you learned and draw a picture to illustrate it in the box. Include details in your drawing.

Facts:

- Beavers can be found under the water.
- Caddisfly larva live under the pond.
- Tadpoles live under the water.

Details:

- They make a home of pebbles and sand.
- They lose their tails and grow legs.
- Their powerful tails help them rise to the surface.
