**R.A.F.T.S. PROMPT**

You are a super-cool red bicycle. You've been on many an adventure in your life: riding through parks, through mud and leaf piles, and up and down streets all over town. Today's plan was to ride with the other neighborhood bikes all day, through the puddles from last night's rainstorm, up hills, and then zoom back down. But this morning, you woke up to find that one of your tires is flat! You can't ride with a flat tire! Draw a picture and write some words to tell what you will do to solve your problem and finish your day as planned. You want to help other bicycles, in case they end up with a flat tire, too. Adventures like this just can't be missed!

Role: A super-cool red bicycle

Audience: Other bicycles

Format: Story

Topic: How you solved your flat-tire problem

Strong Verb: solve
