Among other things, you've developed techniques for how to keep them safe, fed, entertained, and calm. In fact, you are such a good babysitter, a local community group with a young teen membership has asked you to write a blog for their newsletter that will help their members learn the ins and outs of babysitting so they can make a wise decision about becoming a babysitter or not. Be sure you write a clear connection between the evidence you provide and the conclusion.
