**R.A.F.T.S. PROMPT**

You are—YOU! You’ve just read Squirrel’s Family Tree and thought it was really cool that the author wrote some “Nutty Facts” at the end of the book. You’d like to write a book about yourself and include fun facts at the end. So you’ve decided that you’ll illustrate three pictures and write short captions about them. These pictures will show three fun facts about you: First, a picture of you, so that readers will know what you look like. Be sure to show your hair color and the color of your eyes. The second picture will show your favorite thing to do. Your third picture will show your favorite color, and something you have that’s your favorite color. This will give your future readers some good facts and details about you!
