

A FORTUNE TELLER

For Family Fun & Conversation

HOW TO MAKE YOUR FORTUNE TELLER:

1. Cut out the fortune teller square. Turn the square over to the non-printed side.
2. Fold one corner over to meet the opposite corner, fold on the diagonal and then unfold.
3. Repeat with the remaining corners. Lay the creased paper flat.
3. Fold in each of the four corners so that their points meet in the middle.
4. Flip the fortune teller over.
5. Again, fold in each of the four corners so that their points meet in the middle.
6. Flip the fortune teller over again.
7. Fold the fortune teller in half (the numbered flaps should be on the inside).
8. Insert your thumbs and pointer fingers, one into each of the four folded pockets on the outside of the fortune teller. Work your fingers into the four corners and, using the creases, push the corners together to form four points in the center of the fortune teller. Now you are ready to play.
