

Nail Designs

FOR WINTER

Now that winter is officially here, it's time to give your nails a seasonal makeover! This cute, chilly nail art should do the trick...

SNOWFLAKE

1

Paint your nails with two coats of a color of your choice. Wait for the polish to dry completely.

2

Use the point of a toothpick to make three white lines.

3

Still using the toothpick, make two smaller lines extending from the first three lines.

4

Make two more smaller lines extending from the first three lines.

5

Finish off your snowflake with two short lines extending from the center of it!

SNOWMAN

1

Paint your nails with two coats of a color of your choice. Wait for the polish to dry completely.

2

Using the toothpick, draw two circles for the base of your snowman.

3

With the point of the toothpick, draw lines for stick arms and two dots on its belly for buttons.

4

First, make a little orange triangle for its nose. Then, make two dots for eyes and four dots for a mouth.

5

Make a half-circle on the top of your snowman's head for the base of its hat.

6

Draw a line along the bottom of the hat and a little pom-pom on top.

7

Finally, make a pile of snow under your snowman and dots for falling snow!

SNOWY TREES

1

Paint your nails with two coats of a color of your choice. Wait for the polish to dry completely.

2

Using the toothpick, draw three tiny trees on your nail in black polish.

3

Outline the right side of your trees in white polish using the toothpick.

4

Finish off this design with some snowy white dots!
