

## Weekly Homework

Monday	Read and complete word study example sentences (2 for each stem). This is always started in class, so it shouldn't take long.
Tuesday	Read and study vocabulary
Wednesday	Math focus night-multiplication facts and/or math with answers...read too 😊
Thursday	Read and complete the weekly reflection letter. This should be completed with the help of your family. Reflection helps us all.
Friday-Sunday	Read and write in a comfortable spot. Help your family around the house. Go outside. Enjoy your weekend!

### Notes:

- Please look over the homework policy for detailed questions, such as when you should stop homework.
- If a homework assignment is not completed, it is your responsibility to complete it the following evening.
- Don't read to the clock! Get lost in a book as much as possible.
- Homework is practice, so it is never graded.
- Class work should come home on rare occasions. Read the homework policy for more information on completing work at home.
