**Directions:** Cut out each square below and paste it on the matching whale card above. Bonus: Put two sets together and play "Concentration."

This extinct whale had two tiny back legs and could swallow sharks whole.

This whale has an enormous head and can stay under water for about two hours at a time.

Also called an Orca, this whale has behavior similar to that of a wolf.

The males of this whale species have a tooth that grows seven feet long.

This whale is the largest mammal that has ever lived on Earth and also the loudest.

This whale is called the "sea canary" because of its birdlike whistles.

This whale has a large head powerful enough to break through a foot of sea ice.

This whale has a hump as part of its dorsal fin and makes acrobatic leaps out of the water.
