

Assignment: Chain of Events

1. You will create a chain made up of events from the text. Your chain should cover pages _____ from the text.
2. Find _____ events that you consider to be the most important in this section of text. On the back of this sheet, brainstorm possible events. Add or delete events as you think about the text.
3. When you have the right number of events, put them in order and number them.
4. Find each event in the text. Write the page number(s) next to the event on your brainstorming list on the other side of this sheet.
5. You're ready to make the chain. Write each event in your own words on a strip of paper. Write the corresponding page number(s) on the strip, too.

Optional: Be sure to put the events on the right color strip. Here are the color guidelines:

6. Staple the strips together in order. Make sure the writing appears on the outside of each strip. You now have a "chain of events" for the text!
7. **Optional:** Create a picture for each event. You can use extra strips of paper, or make your own shape to hang from each link. Staple the strips so they don't cover the words about the event.
8. **Optional:** Create a "theme" badge and attach it to a link that demonstrates that theme.
