

Numbers & Operations in Base Ten with Dice

Place this page in a sheet protector or laminate for reuse. Use dry erase markers to record your answers. Roll your three ten-sided dice. In the first box draw the place value blocks or discs to show your number. In the second box write your three digit number out in words. In the third box show your number in expanded form. In the final box, write your number in the middle. Then write the numbers that come one before and one after your number.
