Monster Juice

For your UnHalloween Celebration, make Monster Juice. Circle the class around the caldron, sequence the recipe and then add the ingredients one at a time.

You can add the ingredients in any order but I use the order ginger ale, limeade, sherbet, and then gummy worms. Recite the order a lot while making the recipe. Talk about beginning, middle, and end.

After the tasting, then the students complete the recipe sheet which includes sequencing pictures and also writing out the recipe from a word bank.
