

# Eggs-tra Special

## Bar Graph

It's the annual Easter Egg Hunt and everyone wants to find the most eggs. We made a bar graph to keep track of how many eggs were found by each grade. Who found the most? Study the bar graph below.

### Annual Easter Egg Hunt

Use the information in the bar graph to answer the questions.

- 1 How many eggs did the 4th grade find? \_\_\_\_\_
- 2 How many more eggs did the 5th grade find than the 2nd grade?  
\_\_\_\_\_
- 3 Which grades found an even number of eggs? \_\_\_\_\_
- 4 The 7th grade found 10 more eggs than the 6th grade. How many eggs did the 7th grade find? \_\_\_\_\_ Mark that number on the bar graph.

# Answer Key

## PAGE 40

1. 15
2. 15
3. 3rd grade and 5th grade
4. A bar reflecting 55 eggs should be marked on the graph.
