## April 2 is International Book Day

What is your favorite book of all time?  
Write and act out a commercial  
advertising this book. If the  
technology is available, film  
your commercial and share  
with the class.

On April 3, 1892, the first ice cream sundae was served at a soda shop in Ithaca, New York when the owner of the shop added sweet syrup to a scoop of vanilla ice cream and decorated it with a cherry. Think of a delicious dessert that you would like to create. Draw a picture of your new dessert then write a paragraph describing what your dessert is made of. How does your creation look, taste, and smell?

# My Invention

# Paul Revere's Modern Ride

The third Monday in April is Patriot's Day. Patriot's Day commemorates the Battle of Lexington and Concord on April 19, 1775. It also honors the midnight ride of [Paul Revere](#) when Revere rode through town warning the colonists that, *The Red Coats are coming!* If Paul Revere had to warn people of this impending danger today, how do you think he would do it? Research Revere's ride and rewrite the events of that night as if they happened in this day and age.

---

You've probably heard the saying, "It's raining cats and dogs." What would happen if it actually did rain cats and dogs?

Write and illustrate a story about the day it rained cats and dogs.

Write a story about an egg that hatches something surprising. Give your story an exciting beginning. Example: At last, a tapping sound came from inside the egg. Everyone watched and waited. Finally, there was a loud crack, and . . .
