

The Informational Party Platform

We believe truth is the most important thing there is in our country. Informationalists will give you the facts and let you make up your own mind. We promise to always present straightforward information to America, using easy to read graphs, charts, diagrams, and photographs with captions.

NARRATIVE PARTY PLATFORM

We believe that all things should have a happy ending. Although we may encounter problems along the way, we pledge to work together to find a way to solve them no matter what setting we find ourselves in.
