

Photograph with Caption

A photograph is a picture of something real that is taken with a camera.

A caption has words that go along with the picture.

DEEPEST DIVER

Whales and dolphins are very closely related. In fact, some animals we call whales really are dolphins. The long-finned pilot whale is a dolphin that can dive almost 2,000 feet!

A photo helps the reader see what the text is talking about, and the caption explains what's happening in the picture.
