

Create a Classroom Setup Kit

By Genia Connell

As you close down your room for the end of the year, keep the beginning of next school year in mind.

Setup Kit

Create a setup kit that includes all the items you will need to get your room ready for the new school year. By putting together this kit now, you won't waste valuable time looking for things you need that may have been put away in several different locations in your classroom.

After you create your kit, put it in an easily accessible place so you can open and go! Items you may want to pack in your kit:

- Stapler and staples
- Scissors
- X-ACTO knife and blades
- Permanent markers
- Sanitizing wipes
- Sticky notes
- Sticky tacks and sticky clips
- Hooks
- Push pins
- Tape
