

MaKer & SPACE

Donations NEEDED!

In our class, we are building a Maker Space. In a Maker Space, we are using Science, Technology, Engineering, Art, and Math to make things that are fun or functional from recycled materials. Maker Spaces also promote creative thinking, problem solving, and collaboration.

We need the following items:

- **Cardboard from cereal boxes**
- **Toilet paper rolls, paper towel rolls**
- **Plastic cups from yogurt, etc.**
- **Plastic bottles, tubs, lids, containers**
- **Tape of any kind**
- **Buttons, straws**
- **Popsicle sticks**
- **Yarn, string, ribbon**
- **Baby food jars**
- **Broken toys or gadgets, parts from games or puzzles,**
- **Wire hangers**
- **Anything that you think can be reused or repurposed!**

Thank you for supporting STEAM and helping to stock our Maker Space!

Sincerely,
