Purpose:
Different animals have different adaptations which allow them to survive in their environment. Which “adaptation” do you think will help you collect the most food? A beak in the shape of a knife, spoon, or chopsticks.

Prediction:

Data:

<table>
<thead>
<tr>
<th></th>
<th>rice</th>
<th>pinto beans</th>
<th>lima beans</th>
</tr>
</thead>
<tbody>
<tr>
<td>plastic knife</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>plastic spoon</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>chopsticks</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Results:
1. Which beak allowed you to pick up the most food? __________________________
2. Which food was the easiest to collect? __________________________
3. Which animal do you think would survive the longest in its environment: the one with the knife, spoon, or chopsticks for a beak? __________________________

What other animal adaptations can you think of?
