

Date: _____

Dear Families,

The kindergartners are talking about family memories. A simple object, like a shell or postcard, can help us remember places we've been or things that have happened. Please help your child find a small object that will help her or him remember something special your family has done together. This could be a trip somewhere, a special celebration, or an event of which you all took part.

The object should fit in the attached brown paper bag. Please have your child bring it back on _____ to share with the class. It will be returned at a later time.

Sincerely,
