3 spiders in a web
spin themselves to sleep.
When they awaken,
how many legs will start to creep?

3 little ghosts each gobble up 6 sweets.
All the ghosts together eat how many treats?

4 Jack-o’-Lanterns, each shining with 6 teeth.
How many chompers can we see from the street?

6 screeching bats, heading out into the sky.
How many wings will flit and flutter by?

3 spiders in a web spin themselves to sleep.
When they awaken, how many legs will start to creep?

6 screeching bats, heading out into the sky.

How many chompers can we see from the street?

6 screeching bats, heading out into the sky.
How many wings will flit and flutter by?

2 trick-or-treaters, stirring up some stew.
How many hands together cook the brew?

5 black cats are yowling at the moon.
How many furry legs are dancing to the tune?

4 three-eyed monsters, peering out the door.
How many eyes glow as they begin to roar?
