Activity No. 16

1

Student Work Sheet

A family is composed of people living together and functioning as a unit. Many people consider the ideal family to consist of a father, who works away from home; a mother, who stays at home; and two children, a boy and a girl. Well, that does **not** describe my family. Does it describe yours? If so, you are in a minority. There are as many interesting family situations as there are classmates in your classroom. In the space below write about your family. Do not forget to include grandparents and step-grandparents, aunts and uncles, parents and stepparents, and siblings—whole, half, and step.

MY FAMILY
