

ATTENTION ALL KINDERGARTEN STUDENTS

A Written Proclamation!!!

The New and Improved Humpty Dumpty A Lesson in Problem Solving

Dear Kindergarten Students and Parents,

I heard that you are learning the nursery rhyme "Humpty Dumpty." Rumor has it that you even tried putting an egg back together today at school. I know that when our Humpty Dumpty fell off the wall, my horses and men had a terrible time trying to put him back together again. Being the King of the Land, I am requesting that all kindergarten students try to design and build a Humpty Dumpty that will not break if it falls off a wall. Be creative, have fun, use whatever materials you want, make it a family project, and be ready to bring your new and improved Humpty Dumpty in on _____. I will be there to see what you have created!

If you have any questions, please talk to _____. I know she/he has already started working on her/his new and improved Humpty Dumpty, and it is as cushioned as a soft pillow!

Very truly,

The King
of the Land
