

Is It Stored Safely?

Directions Circle the six medicine storage errors in this picture. On the back of this sheet, describe safe storage solutions for the medicines pictured below to help make this home safer.

ANSWERS: 1. bottle of cough medicine on the counter and a teaspoon with a trace of medicine visible on spoon (should be put up and away); 2. medicine left out on the nightstand with dosage cup; 3. allergy medicine next to vase; 4. toiletry bag hanging low from doorknob inside closet; 5. medicine bottles visible and accessible inside kitchen cabinet below kitchen sink; 6. open purse with multivitamin bottle sticking out of the top.
