A Note From Your Child’s Teacher

Please sign and return this Opt-Out Form to your child’s teacher. Thank you.

Our class will soon begin a unit of study focusing on the safe and responsible use of over-the-counter (OTC) medicine. In OTC Medicine Safety, students will learn about topics including the difference between prescription and OTC medicines, information on a Drug Facts label, OTC medicine safety, and why it’s important to never use any medicine without adult permission and supervision.

This unit will include take-home information for families that explains the basic goals of the program and offers ideas for in-home extensions for the learning we will be doing in the classroom.

If you wish to opt out of having your child taught the lessons about OTC medicine safety, please read on and check the box.
