

Date

Dear Family,

Our class is starting a unit called 'Getting To Know You with Math'. This unit serves as an introduction to some of the mathematical routines that your child will be doing all year. Some of the routines include counting to take attendance and counting and analyzing data from our class 'Survey of the Day', such as how many students like (and do not like) chocolate ice cream? The Survey of the day is located on our front door and we would like you to help your child read and complete the survey. You may just find out something about your child that you never knew before 😊 The survey will be up all year long and we will also use it as a tool to talk about each others likes and dislikes.

Here is a list of some books that you can read to them to help facilitate their counting learning in school:

A Busy Year by Leo Lionni

Mouse Count Ellen Stoll Walsh

Count and See by Tana Hoban

Thanks for your support with this dynamic and fun unit.
